

THE EVENING BULLETIN.

VOLUME XVII.

MAYSVILLE, KY., FRIDAY, MAY 27, 1898.

NUMBER 158.

THE NEWS CONFIRMED.

Commodore Schley Believed to Be Off Santiago.

SAMPSON IS NOT FAR AWAY.

He Also Remains Within Striking Distance of Havana.

IMPORTANT ACTION EXPECTED.

If Schley Has Cervera Corked Up In Santiago Harbor He Will Be Allowed to Finish the Business in His Own Good Way.

Key West, May 27.—Definite news of the American squadrons operating in Cuban waters was received here fully confirming the general situation as previously outlined.

Commodore Schley is believed to be off Santiago de Cuba, and definite information as to the exact situation insofar as it affects Admiral Cervera's squadron may be expected any time.

Rear Admiral Sampson is in a position to proceed quickly to the assistance of Commodore Schley with any or all of his ships on receipt of definite word from Commodore Schley, and at the same time he remains within striking distance of Havana.

If, however, Commodore Schley reports that Admiral Cervera is bottled up at Santiago de Cuba, the naval view is that he will be permitted to finish the business at that point with the ships now under his direct command.

Nothing Definite Received.

Washington, May 27.—Secretary Long said at the close of office hours that no word had come from any of the scouting vessels so numerous in West Indian waters, concerning the Spanish squadron, wherefore he concluded that Cervera was still in Santiago harbor. Supposedly Schley is lying outside watching the entrance to prevent the egress of the Spanish vessels, but, while there is evidence of a certain kind on that fact, there has been no official confirmation of it. This is a little remarkable in view of the fact that it is only a day's run for one of Schley's swift torpedo boats from Santiago to a cable port in Haiti. There is also a curious lack of information from the newspaper dispatch boats on this point.

Dreadful State of Affairs.

New York, May 27.—The Norwegian steamer Brateberg, which left Sagua La Grande, Cuba, on May 20, arrived with a cargo of sugar and 49 passengers, who report a dreadful state of things in Cuba, starvation and death staring all the poorer class in the face. At Sagua there were only a few provisions and unserviceable gunboats and only a few troops left to guard the city. In Matanzas there were from 10,000 to 14,000 troops. The insurgents were reported to be gaining in numbers daily.

Conference With Cubans.

Washington, May 27.—Secretary Alger and General Miles conferred with two officers from the staff of General Garcia, General Enrique Collazo and Lieutenant Colonel Hernandez, who came direct from Garcia's headquarters bearing credentials from him to effect a plan of co-operation with the American forces. They come to assure the co-operation of the Cuban army with that of the United States. They say there are 25,000 Cubans in the field.

Lieutenant Beatty Will Recover.

Chattanooga, May 27.—Inspector General Breckinridge finished his work of inspecting the First division of the First corps of the army. He will commence inspecting the Second division of the First corps soon. He expresses himself as highly pleased with everything so far inspected. The officer injured in the sham battle was Lieutenant Beatty of the Sixteenth Pennsylvania. He is resting well and the injury will leave no permanent effects.

Equipment to Be Manufactured.

Indianapolis, May 27.—The United States arsenal in this city has become a manufacturing establishment and a large force of men will be put to work immediately. The articles of war to be turned out will include equipment for infantry, cavalry and artillery. Major A. L. Varney has received orders to put in necessary machinery. Arms will not be turned out at present.

Little Progress Made.

Washington, May 27.—Little progress was made by the war department officials in securing transports for the Philippine expedition, the only addition obtained being the Ohio, a good-sized vessel which will be rapidly transformed, so as to make her

available for carrying a large number of men and animals.

Sobral Pulled In.
Key West, May 27.—The Spanish spy captured on the Panama has been identified positively as Lieutenant Sobral, former naval attaché at Washington.

Cubans Are Firm.

Paris, May 27.—Dr. Betances, representative of the Cuban Republican government in Paris, expresses the firm conviction that the war will be over sooner than is thought. "The Americans," he says, "will experience no difficulty in landing troops, who will at once be joined by insurgents, who are much stronger than is generally supposed. Nor is there any doubt that Rear Admiral Sampson will strike a heavy blow, shortly. The insurgents would rather accept annexation by the United States than the autonomy which Spain would grant. Before another week the Americans will be masters of Havana and firmly established in Cuba."

A Private Disciplined.

San Francisco, May 27.—Private Campbell, a new recruit of the Tenth Pennsylvania regiment, was brought here in irons, accused of a gross breach of discipline while the regiment was at Mount Gretna. It is charged that he cut up a uniform on a negro. The colonel sent a sergeant to summon him, but he turned upon the messenger, cursed him roundly and refused to obey. He will be tried by court-martial in this city and, it is said, may get two years on Dry Tortugas.

Mounted Riflemen.

Colorado Springs, Colo., May 27.—A regiment of mounted riflemen, made up of 500 men from different military organizations in this state, has been formed in this city. Telegrams have been forwarded to Washington to ascertain if such a regiment can be accepted by the war department.

To Keep Up Spanish Spirits.

Madrid, May 27.—Governor General Augusti, the Spanish commander at Manila, seems to be following the tactics of Captain General Blanco at Havana in sending out for the encouragement of the Spaniards "news" of repeated alleged reverses to the American arms.

No Mottoes Allowed.

St. Louis, May 27.—The secretary of the navy has issued an order that contractors of army supplies must not put mottoes on their goods. This was brought about by a St. Louis contractor of hard tack, who stamped on each cake the words "Remember the Maine."

Oregon at Key West.

Key West, May 27.—Captain Chase Clark and other officers of the Oregon came ashore at 10 a. m. and reported all well on board and the ship in good condition. The Oregon will remain here for orders. The Oregon left San Francisco on March 19.

Very Significant Order.

San Francisco, May 27.—Orders have been received to place the Yorktown and Philadelphia in commission as soon as possible, also to transfer the boys from the training ship Mohican and to fill up that vessel with seamen and ordinary seamen.

To Man Celtic King.

Charleston, S. C., May 27.—Eighty-five members of the Charleston naval reserves, under command of Lieutenant Igoe, left here for New York. They have been ordered there to man the Celtic King with naval reserves from New York.

Jefferson City, Mo., May 27.—Governor Stephens stated that Missouri would furnish one colored and two white regiments under the second call of President McKinley for troops.

Forty-two Thousand.

Chickamauga National Park, Ga., May 27.—There are now 42,000 men encamped at the park.

New York, May 27.—The battery offered to the United States government by John Jacob Astor when hostilities first broke out was accepted in a telegram to H. B. Ely, Mr. Astor's representative in this city, from Lieutenant C. March of the Fifth United States artillery, who has been detailed to command the battery.

Strain Relieved.

San Francisco, May 27.—The departure of the transport steamers City of Peking, City of Sydney and the Australia, with the 2,500 men who go to join Admiral Dewey, has relieved the intense strain of the people of this city who waited for the departure of the soldiers for two weeks or more.

All Colored Troops.

Frankfort, Ky., May 27.—Governor Bradley has announced that, unless otherwise instructed by the president, Kentucky's regiments on the second call will consist of colored troops.

LOOKING FOR TROUBLE.

Spain Preparing to Go Into Privateering Business.

SHE IS IMPRESSING SHIPS.

They Are Ostensibly For Auxiliary Cruisers.

THIS WILL MAKE IT INTERESTING

When a Demand Was Made In the Senate That Such Methods Be Resorted to, It Was Declared That It Must Be Done Secretly.

Madrid, May 27.—The Spanish government has ordered all the Spanish steamers from 1,000 tons up, capable of steaming a minimum of 12 knots, to be impressed as auxiliary cruisers. The Spanish commanders at the various ports have been instructed to take charge of such steamers, whether mail boats or otherwise. It is believed these ships are for privateering purposes.

Will Give Two For One.

Key West, May 27.—Colonel Vincente de Cortijo, former commander at Cabanas fortress, and understood to be a brother-in-law of Lieutenant General Valeriano Weyler, Surgeon Major Garcia Julian and two private soldiers who were captured on the Spanish steamer Argonauta, and who have been confined at Fort McPherson, Atlanta, arrived here on the steamer City of Key West. They were immediately taken in a small boat to the United States revenue cutter Hamilton, where they will remain until exchanged for Hayden Jones and Charles Thrall, American newspaper correspondents, who landed in Cuba recently and were captured.

To Resort to Privateering.

Madrid, May 27.—In the senate Count Almenas introduced the question of privateering, urging the government to adopt privateering "in view of the American proceedings." The minister for foreign affairs, Duke Almodovar de Rio, declared the matter could not be debated. Count Almenas, however, insisted, but the president of the senate refused to allow the discussion to continue, saying such a thing must be done secretly.

Captain Concha's Explanation.

Hongkong, May 27.—Captain Concha of the ill-fated Spanish cruiser Don Juan de Austria, destroyed at the battle of Manila, says that the Spanish commanders were quite aware that fighting was hopeless, but were forced to it by the state of public opinion at Manila. He and other officers wished to steam out of the harbor to meet the Americans, but Admiral Montojo forbade that move.

Queen Regent Will Remain.

London, May 27.—There are renewed sinister predictions of an impending revolution in Spain contained in a special dispatch from Madrid. Emperor Francis Joseph of Austria is said to have strongly advised the queen regent to prepare to fly and her mother, who is now in Madrid, is reported to have given her the same advice, but, it is added, the queen regent is determined to remain.

Political Outlook Brighter.

Madrid, May 27.—The political outlook is brighter, and the ministerialists believe that a cabinet crisis can be averted. Captain Aunon, minister of marine, declared in the Cortes that when an opportunity presented itself, the cabinet would not fail to do its best to bring about an honorable peace.

France Joins Spain.

Halifax, May 27.—A fleet of Spanish warships are just reported off Halifax harbor. Huddled orders have been issued to all the troops in the garrison, and the forts about the city and harbor are being manned by an extra force.

Kaiser Bill's Neutrality.

Gibraltar, May 27.—The German government has presented 40 Krupp guns to Spain. They were shipped as "kitchen furniture." They passed through France, where the secret was known.

Madrid, May 27.—The dominant note of public opinion here is a desire to find some way to honorable peace, as Spain has nothing to gain by an indefinite prolongation of hostilities.

It Was Said to Spain.

Hamburg, May 27.—The North German Lloyd steamship Havel has been sold to the Spanish Compania Transatlantica, and has gone to Barcelona.

GOVERNOR BUSHNELL

Thinks the Families of Volunteers Can Best Be Cared For Locally.

Springfield, O., May 27.—Governor Bushnell, when asked about the movement of the organization of a state association for the care of families of volunteers said: "My own judgment is that the matter can be handled locally better than in a state or general organization. I have had some correspondence with Cincinnati people on the subject."

"Previous to the movement in Cincinnati, however, Toledo took steps in the district from which the Sixteenth regiment comes to care for the families. As I understand it, the work is in the hands of people who look up the cases demanding attention without waiting for applications."

"This, to my mind, is the better plan. In each locality the organization knows the families which require looking after, and are competent to do the work independently."

Chased by Torpedo Boats.

Portland, Me., May 27.—Captain Martin of the British steamer Europa, who arrived here from Licata, Sicily, reports that as he was leaving the Mediterranean he was chased by a Spanish torpedo boat, but as there was a heavy sea on in which the Spaniard labored hard, the Europa escaped. The Europa brought 2,500 tons of sulphur, which is contraband. On the day after she had eluded the first vessel she was chased again by another Spanish torpedo boat, with the same result.

The Negro Problem.

Atlanta, May 27.—The third annual conference of the series instituted for the scientific investigation of the negro problem, attended by many prominent colored educators from various parts of the country, adopted resolutions looking to reforms in conducting churches, negro secret societies, small beneficial societies, death benefit societies and suggesting that co-operative business efforts among negroes be encouraged.

Mr. O'Brien's Report.

Washington, May 27.—Mr. Hugh O'Brien, second secretary of the British embassy here, has made a report to the British foreign office on the extent of commerce between the United States and China. The report is opportune to the recent movements of European powers, particularly Great Britain, Germany and Russia, towards securing territory and commercial advantages in China.

Against Fusion.

Raleigh, May 27.—The Democratic convention met here. The attendance was large and representative. The Populists have offered a proposition looking to fusion. Julian S. Carr, one of the most influential Democrats, says the vote against fusion will be five to one.

PARTY OF FIRST PART

Failed to Fulfill His Part of a Marriage Contract

THIS SPOILED A WEDDING.

The Church Was Crowded With People to Witness the Event, but For Some Reason the Groom Failed to Appear.

Huntington, Ind., May 27.—The wedding of Joseph Carroll and Miss Katie Foster, which was to have been solemnized at Sts. Peter and Paul's Catholic church, did not take place because Carroll did not put in his appearance at the appointed hour.

Carroll was with Miss Foster at her home until midnight arranging for the wedding, and every detail was arranged. Early in the morning Miss Foster received a note from him, stating that he would probably not be on hand for the wedding, and that if he did not come she should consider the marriage postponed.

The church was crowded with people, and, after waiting for an hour, Father Hueser dismissed the congregation, with no wedding. Nobody has been able to learn what has become of Carroll or why he disappointed the young lady. Miss Foster is grief-stricken.

McGiffert Case Laid Aside.

Winona Lake, Ind., May 27.—The general assembly laid aside the McGiffert case, which was of intense interest to the whole church, in order to celebrate the two hundred and fiftieth anniversary of the adoption of the Westminster confession of faith and catechisms. A large attendance had been advertised, but it had failed to materialize when the exercises began, though lunch baskets were in evidence.

Saved Her Life.

Dillsboro, Ind., May 27.—While attending a fishing party on Laughery Miss Mary Pate of this place fell into the water, and would have drowned but for the efforts of Jesse Kittle, a 15-year-old boy, who held to a projecting root with one hand and grabbed the girl and kept her head out of water until help came.

A GENERATION ago a writer characterized Spain as "a huge and torpid mass, the only representative now remaining of the feelings and the knowledge of the middle ages." She's worse to-day. The downfall of such a nation is only a question of time.

For the ten months so far in the present fiscal year the exports of agricultural products have been more than \$100,000,000 in excess of those of the corresponding ten months of the preceding year. Some of our Republican friends of course claim the credit for this increase for the present administration, but the Lexington Leader is candid enough to admit that "the failure of the crops of foreign countries has resulted in the rushing out of immense quantities of our cereals to fill depleted granaries abroad."

The Company Won.

The trial of the case of Pollock against the C. and O. in the U. S. Court at Covington resulted in a verdict Thursday for the defendant on peremptory instructions.

Young Pollock was killed at Concord by the F. F. V. a year or so ago, at the time the two daughters of Charles Linss met their death. The Linss trial, as stated Thursday, resulted in a verdict of \$2,000—\$1,000 for each death. The suits were for \$25,000.

It was the Fourth Regiment of Missouri Volunteers, under command of Colonel Corby, that passed through Maysville Thursday just before 12 o'clock. They were en route to Camp Alger, Va., and were given an enthusiastic greeting by a large crowd as the trains passed along Front street. The soldiers all seemed to be enjoying themselves. The Third Regiment from same State will come through Maysville on its way to Camp Alger as soon as it can possibly be moved, which will probably be within the next day or so.

Mrs. JOHN DEAN was tried in the Police Court Thursday on charge of keeping a disorderly house. This was her second hearing, the jury at the first trial being unable to agree. The jury last evening were also unable to agree, and were discharged until this morning.

ANGLO-AMERICAN ALLIANCE.

It is Eloquently Advocated by Rev. Hugh McLellan, of Melbourne, Australia.

LEXINGTON, Ky., May 25.—The Victoria Club, composed of British subjects who are students at the Kentucky University, gave a banquet last night at which those who responded to toasts urged Anglo-American alliance.

Hugh McLellan, of Melbourne, Australia, in responding to the toast "The Queen," electrified his audience by saying, among other things:

"Would it not be a fitting close to her illustrious reign if, in her declining years, she should see one more victory for peace in the consummation of an alliance between her own people and the people of this great Republic? An alliance that would be for peace and not for war; an alliance that would prevent forever the hideous spectacle of two nations of one blood repeating the barbarities of 1776 and 1812; an alliance that would carry through the world Christian civilization; an alliance that would mean light and liberty wherever blended flags should be unfurled?"

Rev. Hugh McLellan was pastor of the Christian Church at Germantown a few years ago, and is at present in charge of the church at Shelbyville. His ability as an eloquent speaker is acknowledged wherever he has spoken.

STEEL FREIGHT CARS.

They Are Replacing the Old Style Hopper Bottom Wooden Coal Cars.

The 1,000 steel cars which the Pennsylvania Railroad has ordered from the Schoen Steel Car Company will weigh about 34,000 pounds each, or altogether 34,000,000 pounds. This means an immense amount of steel and iron, and shows where the bulk of the output of the steel plants goes to.

These 1,000 cars, holding 100,000 pounds each when loaded, would represent a total weight of 134,000,000 pounds. The old style hopper bottom wooden coal cars had a capacity of 60,000 pounds, and weighed about 34,000 pounds each, and their total carrying capacity was 6,000,000 pounds, whereas the total carrying capacity of the 1,000 Schoen steel cars will be 10,000,000 pounds, which shows a gain in load of 4,000,000 pounds, without any increase in dead weight.

These facts alone speak well for the future of the steel car industry, and it only remains to demonstrate their future economy by a practical test of their durability, and then the day of the wooden car will be over.

THE C. and O. has put in an improved system of switches at all its sidings which will do away with all danger of rear-end collisions and of trains running into open switches at passing points. A tall danger signal is placed on the main track several hundred yards from the end of the switch to warn approaching trains. The switch cannot be thrown open by a trainman until a lever is thrown which by means of wires turns the danger signal in the distance, warning approaching trains that the switch is not clear. When the train is safely on the siding and the switch closed the white light is shown at the signal, denoting that the track is clear. With this system added to their present block system, a collision will be practically impossible on the C. and O.

THE many friends of the venerable Rev. Cleon M. Keyes will hear with sorrow that his eyesight is greatly impaired, with no hope of any improvement. This eminent servant of the Lord, has long been totally deaf, which has greatly interfered with his work as a minister, and now this added affliction is one to be greatly deplored. Rev. Keyes is one of the truest and most sincere Christian men whom it was ever our fortune to know and entertain, says a correspondent.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at J. James Wood's drug store. Regular size 50c., and \$1. Every bottle guaranteed.

A big real estate deal was closed Thursday.

Messrs. A. H. Thompson and W. B. McAtee, members of the well known firm of Thompson & McAtee, dealers in buggies, carriages, agricultural implements, &c., purchased the property of the Maysville Carriage Company, just west of the opera house, on West Second street.

In the deal, the firm conveys to the carriage company what is known as the McKrell property on the west side of Sutton street, and also the old Calhoun & Atkinson plow works building on Front street, west of Wall. ALTHOUGH a very busy man, Dr. F. V. Pierce, of Buffalo, N. Y., has found time in which to write a great book of over a thousand pages entitled, "The People's Common Sense Medical Adviser, in Plain English, or Medicine Simplified." Few books printed in the English language have reached so great a sale as has this popular work, over 600,000 copies having been sold at \$1.50 each. The profits on this enormous sale having repaid its author for the great amount of labor and money expended on its production he has now decided to give away, absolutely free, 600,000 copies of this valuable book, the recipient only being required to mail to the World's Dispensary Medical Association, of Buffalo, N. Y., of which company he is President, twenty-one (21) one-cent stamps, to cover cost of mailing only, and the book will be sent postpaid. It is a veritable medical library, complete in one volume. It contains 1008 large pages, and over 300 illustrations, some of them in color. The Free Edition is precisely the same as that sold at \$1.50 except only that the books are bound in strong manilla paper covers, instead of cloth. It is not often that our readers have an opportunity to obtain a valuable book on such generous terms, and we predict that few will miss availing themselves of the unusual and liberal offer to which we have called their attention.

KLONDIKERS RETURNING.

Many of Them Discouraged by the Hardships Met at Chilkat and White Passes.

Many Klondikers are returning, or preparing to return from Chilkat and White passes, being disheartened by the discouragement on the trails and the loss of life caused by the Chilkat avalanche. The steamers Queen and Rosalie have brought down to Tacoma, Wash., several dozen men who had started for the Klondike, but concluded to sell their outfits and return. They say that many will follow them.

Those who have reached the summits and lakes Linderman and Bennett are reported to be moving rapidly forward. Since the storm of two weeks ago good weather has prevailed in the interior, and thousands are starting down the lake, hoping to reach the Lewis river, at the foot of Lake La Barge, before the ice breaks up. Their sleds are fitted with sails, and when the south wind is blowing hundreds of outfits and men may be seen gliding over the smooth lake ice toward the gold land.

All reports from Dawson are encouraging except as regards scurvy and pneumonia, which has prevailed there since February. J. E. Ray, of Detroit, who arrived the other night, says the Dawson hospital was full on March 7, when he left, and Dr. Leback said there was not room for another cot.

The scurvy is caused by uncooked food and uncleanness. Ray says the victim is himself to blame in nearly every instance. The pneumonia cases are generally men who have become exhausted while searching for claims.

Important gold finds have been made on Barney creek, a tributary of Seventy Mile creek, which empties into the Yukon on the American side 130 miles below Dawson. The diggings are 50 miles above Seventy Mile creek's mouth. The gold is very pure, being worth two dollars an ounce more than the Klondike product. A hundred men from Dawson have staked claims.

President Awaiting News.

Washington, May 27.—President McKinley, according to those who were with him during the forenoon, has received no information materially changing the war situation. He has been eagerly awaiting news from the front, but there was none during the forenoon and save for a long consultation with Secretary of War Alger and a review of the situation in congress, there was nothing to disturb the usual routine of his work.

Forces at Camp Richmond.

San Francisco, May 16.—The strength of the force now at Camp Richmond, including commissioned officers and enlisted men, by command, is 7,010, and in a week there will be 4,600 more men.

DRAFTED INTO THE ARMY.

Conscription of Men From the Rural District in Haiti.

Port au Prince, Haiti, May 27.—Allowing for absentees, numbering 50 per cent of the whole force, an estimate, which is said to be absolutely just, the effective roll of the Haitian army should have shown about 30,000 men, or 15,000 actually at the call of officers, the rest being permitted to remain at their homes or to work for wages, even while wearing their uniforms.

The 50 cents a week, which is the ordinary soldier's pay, goes regularly into the pocket of his captain when he does not respond to the roll call. Further than this, the soldier who works for wages is obliged to turn a large share over to his commander.

Conscription is made for the most part in the country districts and the poor fellows, representative of the really most virtuous and respectable portion of the population, after being dragged to the garrisoned cities, are only too glad to enter into any engagement which will restore to them at least a small degree of liberty.

To Secure Foreign Ships.

Washington, May 27.—The senate committee on commerce had under consideration the subject of granting American registry to foreign-built ships for the purpose of securing their services in carrying troops and supplies to the Philippine islands, and decided to place the matter in the hands of a subcommittee with authority to report in all cases in which the war department may make request that registry be granted. The discussion in the committee revealed the fact that there are several foreign ships whose services can be made available when considered desirable.

Fielder Sentenced.

New York, May 27.—Robert W. Fielder, formerly deputy commissioner of public works of Brooklyn, was sentenced to two years and six months in Sing Sing and to pay a fine of \$2,171. This is 10 per cent of the amount that as alleged he was responsible for losing to the city in connivance at the audit and allowance of fraudulent claims against the city of Brooklyn. The judge signified his willingness to grant a stay pending an appeal and to release the prisoner on \$10,000 bond.

The War Bulletin.

New York, May 27.—Tomas Estrada Palma, the representative of the Cuban republic in New York, has just received the first copy of Las Villas, the war bulletin in which is published by authority of General Gomez at the headquarters of the general army. It contains the official news and movements of the army of the liberation and is interesting.

Another Spanish victory! Spain shouts. Will somebody tell him when he is licked? He don't realize that he is badly "done up" already. You may not realize that your linen is badly "done up," either, until you compare it with some of the exquisite work done at this laundry. Our laundry work is simply perfect and can't be improved on. A test is all we need to make you a patron always.

In obedience to a judgment and order of sale of the Mason Circuit Court, rendered in the above mentioned cause at the February term, 1898, I shall, on

SATURDAY, JUNE 4, '98,

at 2 o'clock p. m., on the premises, proceed to sell at public auction, to the highest bidder, on a credit of six, twelve and eighteen months, the following real property, to-wit:

located on the waters of Mill Creek, in Mason County, Ky., and containing about 490 acres. A survey and plat of said farm may be seen at the office of undersigned and will be exhibited at sale. The farm will be sold in parcels or as a whole, to suit purchasers and produce the most money, and full possession given March 10, 1899, and possession for purpose of seeding next fall. This is one of the best farms ever offered for sale in Mason County; is well located; all in grass except about sixty acres; well watered; has four residences, fine barns and several other farm buildings. It is well fenced and the best producing land in Mason County. The purchaser must be prepared to promptly execute bond, with approved security, for the purchase price, which bond shall bear legal interest from day of sale until paid.
